

Rs.125.00 Lakh project grant to Applied Physics Deptt

Department of Applied Physics of DTU is selected for funding Rs. 125.00 Lakh from FIST program of DST, Gov. of India. Through this project, S&T infrastructure of Applied Physics department will be improved. Department will expand its lab in molecular photonics, spectroscopy and waveguide fabrication facility and provide high speed internet connectivity to each lab and faculty rooms. This may provide major boost to the B.Tech (EP), M.Tech (NST) and M.Tech (MOCE) teaching program and enhance R&D activity. This is first time that DCE/DTU is selected for project grant under FIST program of DST and department will be eligible for level II program of FIST for multi-crore project grant in future.
