

DELHI TECHNOLOGICAL UNIVERSITY DTU

Delhi Technological
UNIVERSITY

(Formerly Delhi College of Engineering)

Shahbad Daulatpur, Bawana Road, Delhi-110042

Web : www.dce.edu, www.dcetimes.org

IS THE STUDENT PROTEST JUSTIFIED ?

- DCE is undoubtedly a brand but to transform it into a world-class institution, autonomy is absolutely essential.
- **Autonomy ensures** freedom to excel, regular updation of course curriculum, attracting Quality Faculty, and Research and Innovation excellence.
- **Multiplicity of control of DCE** was a major handicap for its future growth.
- DTU established through Delhi Act 6 of 2009 is a **non-affiliating, teaching-cum-research** University.
- **It is inspired by talent and powered by innovations and is backed by 68 years of dedicated service to the nation as DCE.**
- It has all the necessary autonomy and accountability to shape itself as a world class Technological University.
- As far the **students already enrolled with Delhi University (DU) for their B.E. programmes** (from 1st year to IVth year) are concerned, as per DTU Act, they **will get the degrees of DU.**
- The fears about placements are totally unfounded. Even this year when DCE has become DTU, 516 job offers have been made by about 97 companies including some of the world's very best MNCs and India's tech-companies, besides PSU's such as NTPC, BHEL, GAIL and EIL.

APPEAL TO THE STUDENTS AND PARENTS

"Do not go by emotions alone. Look at what we have achieved for DCE with multiplicity of controls. Also do not lose sight of what can now be achieved when DCE as a tech university has the desired autonomy and freedom to excel. DCE as DTU is all set to be shaped as a world class Tech University"
